

LAMIFLO-Metal foil tape

Shim strip is a cost cutter!

Indispensable for years in many operations when it comes to jobs such as...

- Tool Fitting
- Adjustment of apparatus
- Balancing of tolerances
- Underlaying of devices
- Alignment of machinery equipment
- Alignment of moulds
- Adjustment of bearing clearance, etc.

It takes a minimum of effort and expense to reduce effectively the cost-intensive operation time of your capital investment. Periods required for fitting, tooling, assembly and repair are shortened and the re-working is reduced.

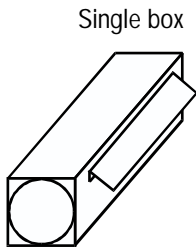

We supply metal foil tape shim strip - self-adhesive too - of the following base metals:

- Steel (O.H. strip steel)
- Brass (CuZn 37)
- Stainless steel material No. 1.4000, 1.4301 (18 Cr 8 ni)

The tape is provided with handy dispenser boxes also suitable for wall mounting where it is needed

Single box

Contents: Brass and Steel: 150 x 2500 mm; - Stainless Steel 150 - 1200 mm

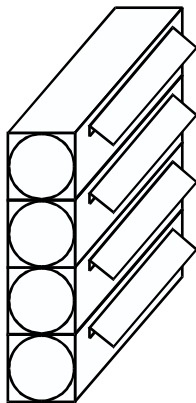

Single box
